MEMORANDUM FOR: Chief/██████████ DDP

THROUGH: Acting Chief/Development Projects Division/DDP

SUBJECT: Reminder on Security Bearing on ██████████ Materials

1. Your office is currently engaged in operations involving the use of TALENT ██████████ materials. Through repeated requests the total number of officers in ██████████ DDP cleared for ██████████ I believe is now on the order of fifty or more. Experience has shown that as the occasion of security briefing recedes into the past, those who have been briefed tend to forget the stipulations and the importance of the security briefing. The fact of acquisition of photography, TALENT ██████████, over Cuba is by direction of the President of the United States an extraordinarily sensitive matter. Only those with the ██████████ certification are permitted to have access to such photography and to know that it is attributable to the United States Government. The means whereby this is acquired is not relevant to the needs of those in your organization who are cleared for ██████████.

2. It would accordingly be appreciated if you would remind the personnel under your direction of the sensitivity of this material, of the requirement that it only be discussed with people who are known to be certified for ██████████, and that the means of acquisition is not to be a subject of discussion, the last being an operational matter and irrelevant to the use of the materials.

JAMES Q. REBER  
TALENT Control Officer/DPD/DDP
